

Cargill Feed Shop

Right Feed. Right Place. Right Time.

Producers balance a countless number of orders and deliveries on their farms. Cargill is partnering with Milk Moovement, a leader in the dairy supply chain, to streamline the feed ordering process.

The Cargill Feed Shop on Milk Moovement is the one-stop shop for managing all feed orders. It features a user-friendly dashboard and real-time updates of feed order status; making feed ordering easier and more transparent.

Simplify Feed Ordering.

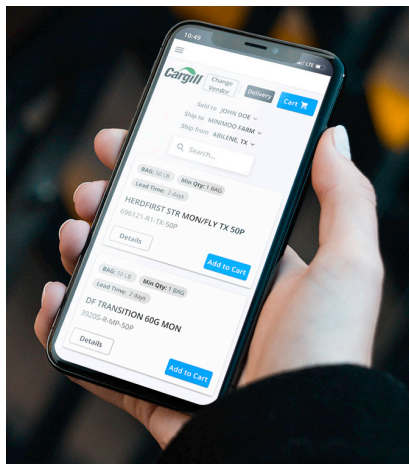

Mobile Ordering

mobile
ordering

Orders are easily placed directly with the plant from a phone

or desktop application no matter the time or day. Order with confidence by reviewing the final order and delivery information for accuracy.

Transparency

notifications

Receive real-time status updates when the feed order is confirmed, enters the production queue, begins the trip to the farm, and is delivered – improving on-farm logistics and accurate feed delivery location.

Data Management

producer
dashboard

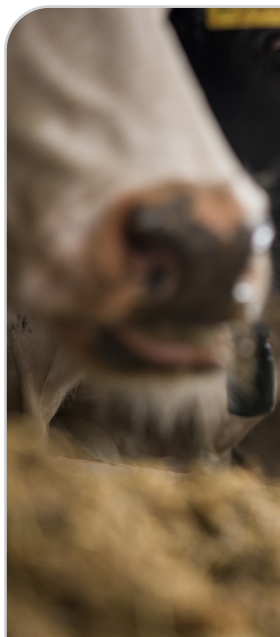

Milk Moovement consolidates feed and on-farm data through a simple platform designed for the producer. Reference feed ordering, production and quality data in one convenient mobile application.

Connect user accounts to collaborate with key stakeholders to take advantage of a bird's-eye view of your dairy's supply chain from feed to processor, when applicable.
